

Environmental Policy

Industrias EPTA s.r.l. seeks to reduce the environmental impact of its activity, carrying out continuous controls that allow an improvement within the Environmental Management, committing itself to:

- Optimise the use of natural resources necessary for its production process and seek their replacement whenever possible.
- Minimise the emissions generated into the environment as far as this is feasible, carrying out the corresponding controls.
- Develop preventive contingency actions that reduce the risk of affecting the environment, health and safety of its workers and neighbours.
- Comply with all Environmental Laws, Decrees and Resolutions in force, and adhere to other international environmental rules that it considers feasible to apply.
- Recycle and reuse materials, by-products, and discards, to reduce the generation of waste to ensure proper waste management.
- Maintain workplaces in a safe condition for all operators and employees.
- Encourage social participation in environmental matters through the training provided, raising awareness, and encouraging operators and employees to adopt environmental care measures outside the company.
